

I am so tired of the whining of the NAB. I want to listen to traffic and weather reports without having to listen to all the mindless prattle of the morning disc jockeys and the never ending commercials. These interferences get in the way of my being able to get the informatino I need when I need it. If I want to pay \$10.00 a month to be able to avoid that I should have that right. Please reject the NAB petition 04-160 so that I can listen to what I want to listen to when I want to listen to it.
